NOTES TO THE FINANCIAL STATEMENTS FOR 30 JUNE 2020

1 BASIS OF PREPARATION

The unaudited condensed interim financial statements of the Bank have been prepared in accordance with the requirements of Malaysian Financial Reporting Standard (“MFRS”) 134 “Interim Financial Reporting” issued by the Malaysian Accounting Standards Board (“MASB”).

The unaudited condensed interim financial statements should be read in conjunction with the Bank’s audited financial statements for the financial year ended 31 December 2019. The explanatory notes attached to the unaudited condensed interim financial statements provide an explanation of events and transactions that are significant for an understanding of the changes in the financial position and performance of the Bank since the financial year ended 31 December 2019.

The unaudited condensed interim financial statements have been prepared under the historical cost convention. The accounting policies and methods of computation applied in the unaudited condensed interim financial statements are consistent with those adopted in the most recent audited financial statements for the year ended 31 December 2019, except as follows:

NEW AND AMENDED STANDARDS ADOPTED BY THE BANK

Effective for annual periods commencing on or after 1 January 2020

- MFRS 3 - Definition of Business (Amendments)
- Interest Rate Benchmark Reform (Amendments to MFRS 9, MFRS 139 and MFRS 7)
- Definition of Material (Amendments to MFRS101 and MFRS 108)

MFRS 3 – Definition of Business (Amendments)

Amendments to MFRS 3 ‘Definition of a Business’ (effective 1 January 2020) revise the definition of a business. To be considered a business, an acquisition would have to include an input and a substantive process that together significantly contribute to the ability to create outputs. The adoption of this standard is not expected to have any material financial impact on the financial statements of the Bank.

Interest Rate Benchmark Reform (Amendments to MFRS 9, MFRS 139 and MFRS 7)

Interest Rate Benchmark Reform (Amendments to MFRS 9 ‘Financial Instruments’, MFRS 139 ‘Financial Instruments: Recognition and Measurement’ and MFRS 7 ‘Financial Instruments: Disclosures’) were issued in October 2019 that modify the specific hedge accounting requirements so that entities apply those hedge accounting requirements assuming that the interest rate benchmark on which the hedged cash flows and cash flows of the hedging instrument are based is not altered as a result of interest rate benchmark reform. The adoption of this standard is not expected to have any material financial impact on the financial statements of the Bank.

Definition of Material (Amendments to MFRS101 and MFRS 108)

Information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity. The adoption of this standard is not expected to have any material financial impact on the financial statements of the Bank.

33 FAIR VALUE OF FINANCIAL INSTRUMENTS

Financial instruments comprise financial assets, financial liabilities and off-balance sheet financial instruments. Fair value is the amount at which a financial asset could be exchanged or a financial liability settled, between knowledgeable and willing parties in an arm's length transaction. The information presented herein represents the estimates of fair values as at the balance sheet date.

Where available, quoted and observable market prices are used as the measure of fair values. Where such quoted and observable market prices are not available, fair values are estimated based on a range of methodologies and assumptions regarding risk characteristics of various financial instruments, discount rates, estimates of future cash flows and other factors. Changes in the uncertainties and assumptions could materially affect these estimates and the resulting fair value estimates.

A range of methodologies and assumptions had been used in deriving the fair values of the Bank's financial instruments at balance sheet date.

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, as derived from prices).

Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The following table presents the Bank's financial assets and liabilities that are measured at fair value.
