

Airport Lounge Statement Credit

LOUNGE BENEFITS

Each Executive Explorer Cardholder may receive up to a \$600 USD¹ statement credit per account every calendar year, in connection with the specific lounges identified by Bank of America. To qualify, you must use your Executive Explorer credit card to pay for the lounge fee at the Program lounges. Allow at least 4 weeks from qualifying for the statement credit to post to your account. Statement credits on Mastercard accounts will be applied based on the promotion clearing date, not the posting date of the transaction. Visa statement credits will be applied based on the posted transaction date. Cardholder is responsible for payment of all charges until the statement credit posts to his/her account. If you utilize more than one lounge, credit will be applied to the transaction that posts to the account first. Any remaining promotion balance will be applied to the subsequent transaction(s). The account must be open and not in default at the time of statement credit fulfillment. No retroactive credit will be given. No rollover of credits will be given. Benefit amount is not negotiable. [Additional terms and conditions apply.](#)
